EDUCATION

B.Tech, Computer Science & Engineering

2023 - 2027

Jaypee University Of Engineering And Technology, Guna

PROJECTS

Hello

Dec 2024

Developed Farm Directly website to connect farmers directly with buyers, eliminating middlemen. Implemented manual farmer registration, product listing with images, and responsive user interface. Used HTML, CSS, JavaScript, and Firebase for real-time database, authentication, and secure transactions.

Reminder app:

April 2025

Created a Reminder app in Android using Java and XML with date/time picker, notification alerts, and Firebase integration for data storage.

Pustakguru :

Jun 2025

PustakGuru app using Java, XML, Firebase, and Google Books API with a clean, responsive UI. App includes book search with search button, PDF download option, favorites feature, and book detail view. Integrated Firebase for account creation, login, logout, password reset, and real-time data storage.

SkillSwap:

Oct 2025

A full-stack skill-exchange platform featuring real-time chat, intelligent skill matching, dynamic user profiles, skillexchange request workflows, and complete Firebase authentication and database integration.
